An offbeat office novel turns apocalyptic satire as a young woman transforms from orphan to worker bee to survivor

Candace Chen, a millennial drone self-sequestered in a Manhattan office tower, is devoted to routine. With the recent passing of her Chinese immigrant parents, sheâ€™s had her fill of uncertainty. Sheâ€™s content just to carry on: She goes to work, troubleshoots the teen-targeted Gemstone Bible, watches movies in a Greenpoint basement with her boyfriend.

So Candace barely notices when a plague of biblical proportions sweeps New York. Then Shen Fever spreads. Families flee. Companies halt operations. The subways squeak to a halt. Her bosses enlist her as part of a dwindling skeleton crew with a big end-date payoff. Soon entirely alone, still unfevered, she photographs the eerie, abandoned city as the anonymous blogger NY Ghost.

Candace wonâ€™t be able to make it on her own forever, though. Enter a group of survivors, led by the power-hungry IT tech Bob. Theyâ€™re traveling to a place called the Facility, where, Bob promises, they will have everything they need to start society anew. But Candace is carrying a secret she knows Bob will exploit. Should she escape from her rescuers?

A send-up and takedown of the rituals, routines, and missed opportunities of contemporary life, Ling Maâ€™s Severance is a moving family story, a quirky coming-of-adulthood tale, and a hilarious, deadpan satire. Most important, itâ€™s a heartfelt tribute to the connections that drive us to do more than survive.
